

GREENVILLE UTILITIES COMMISSION

**QUESTIONS AND ANSWERS II FOR RFB 22-16
FOR MULTIPLE HIGH PRESSURE GAS FACILITIES, SITE WORK**

MARCH 10, 2022

- 1) Could you provide the site addresses?

Approximate street addresses are 5300 Old Tar Road and 1985 Tull Road (specific addresses have not yet been assigned). Refer to the vicinity maps on the site plans for location of the parcels.

- 2) Any stone, construction rock/concrete entrance, or seeding will be completed as part of another project?

Refer to Section 010100 – PROJECT REQUIREMENTS for the general description of work and items covered under other construction contracts (010100-01).

- 3) Are we completing both sites simultaneously, or one at a time?

Construction can be completed separately or simultaneously (Old Tar Road is our first priority).

- 4) Are we responsible for any traffic control measures?

Yes, contractor shall adhere to the requirements of the NCDOT with regard to traffic safety and traffic control devices (015000-1)

- 5) Is the Off-Site Select Borrow Backfill to be provided by GUC or the contractor?

Contractor shall provide all required materials.

- 6) Is there a required dump site for the Undercut Excavation material?

Waste materials, including unacceptable excavated material, trash and debris, shall be disposed of off site (312000-8).

- 7) Is there an anticipated start date?

Provided that the bids are within the funds available, a Purchase Order should be issued within two weeks of the receipt of bids.

- 8) Is there a required completion date?

Refer to Item 16. Contract Period (Page 4 of 20)
