

We recommend setting your thermostat at 78 degrees or higher.

Check your central air conditioning/heating system's filters once a month and clean or replace them when needed.

Weather strip and caulk windows and doors to seal small cracks.

ENERGY SAVING TIPS AS

Sweet as Iced Tea

Use a ceiling fan to supplement your air conditioning.

Compact fluorescent lights use 25% of the energy of traditional incandescent lightbulbs and last up to ten times longer.
