

2 WAYS *to*
LICK
HIGH
ELECTRIC
BILLS

HERE'S THE SCOOP: YOU CAN LOWER YOUR BILL!

ICE CREAM, YOU SCREAM, WE ALL SCREAM AT HIGH ELECTRIC BILLS!

Want to keep your cool and keep more of your cold, hard cash?

Let us help you avoid a meltdown. With the two **FREE** tools below, you'll find easy ways to reduce your energy use. And when you use less energy, you lower your bill. Two ways to save—now that's a treat we can all enjoy!

Temptracker 365™ – this customized temperature calendar lets you see how extreme heat and cold affect your monthly charges, enabling you to adjust your usage and trim your bill.

Energy Depot® – features a DIY energy audit, an energy calculator and a handy comparison tool; Energy Depot is your one-stop online resource to help you better understand and manage your home electricity use and its costs.

For more ways to lick a high electric bill, visit temptracker365.com* today!
