

GREENVILLE UTILITIES COMMISSION
QUESTIONS AND ANSWERS III FOR 24-58
RFB FOR SODIUM HYDROXIDE BULK CHEMICALS
10/29/2024 at 2:00 PM

1. Was the Sodium Hydroxide split out from the other two products for this 6-month bid cycle?

Chemicals are evaluated on a six-month cycle and a determination is made based on pricing for the upcoming six month bid cycle within the 2-year contract.

2. Are the 23-28 bid results the results you are pointing me to in my original Q&A regarding incumbent & pricing?

Per the contract, prices shall remain fixed during the first (6) months with option for 6-month extensions at the same or negotiated unit prices for up to (24) additional months if market and service conditions so warrant and prove to be in the best interest of GUC. GUC negotiated a price of \$652/Dry Ton from \$852/dry ton effective 1/1/24-6/30/24. The price remained the same for the next six month 7/1/24-1/1/25.

3. How can I be added to your bid alert list using our bid team email address?

Email contact will be added to current vendor list.
